Course Information

This document gives you information about the programmes and units available for our Incoming Exchange students.

It should be read in conjunction with the detailed programme information on our course webpages and the relevant programme specification. For each programme in this document, we have included a link to this information and the required level of English language for each programme (as these do differ).

Selecting your units

- Students' programme and units will be in line with our partnership agreement.
- At BU, you will study 3 units each Semester. Each unit is worth 10 ECTS or 20 BU CATS
- It is not possible to select units from across different programme, levels or years. You must select units from the same programme, level and year.
- Compulsory units must be studied and, where you have a choice of additional units these are clearly marked as 'Optional Units'.
- Optional units are offered subject to viability and therefore may not run.
- You may be asked to include an alternative unit. This will be a back up unit if one of your unit choices is not available. Please make sure that any alternative unit/s are clearly marked as an alternative on your learning agreement.
- Units are only taught once in an academic year, so you can only select units that are listed for the semester that you are applying to study at BU.
- We endeavour to accommodate all unit choices subject to timetabling restrictions.

Academic Questions

- If you have academic questions about your choice of units or programme, please contact the Global Engagement Mobility Team who will put you in contact with your dedicated academic co-ordinator for study abroad matters.
