What *will the Turing Scheme funding cover?*

Turing Scheme funding provides grants to support students with specific costs related to undertaking their traineeship. The amount of the grant is determined by the length of the activity and the destination country where the work is being undertaken. The sections below outline standard funding and funding for students from disadvantaged backgrounds.

Please note that the funding provided through the Turing Scheme is intended **as a contribution towards** the overall costs of undertaking this opportunity. It is **NOT INTENDED to cover the entire costs incurred**.

You will receive an initial payment of 90% of funds upfront. After your activity is complete, you will be asked to complete a feedback survey and submit a blog. The remaining 10% will be paid after these requirements have been met.

1. **Funding for Students from non-disadvantaged backgrounds**

This funding consists of a cost-of-living grant.

Cost of Living Grant

To calculate the cost-of-living grant, destination countries are divided into three groups based on the cost of living in each country (<https://www.turing-scheme.org.uk/funding-opportunities/cost-of-living-groups/>). There is no travel grant for students who are not from disadvantaged backgrounds.

1. For placements in **Group 1** countries/territories, the grants are calculated as follows:
 - a. £545 per month for the first 2 months (or parts of months)
 - b. £380 per month for months (or parts of months) from 9 weeks to 12 months
